

Once you have received access to a PowerApp app (email invitation), you can add the app to your Iphone homescreen.

To add a PowerApp application to your Iphone Home Screen:

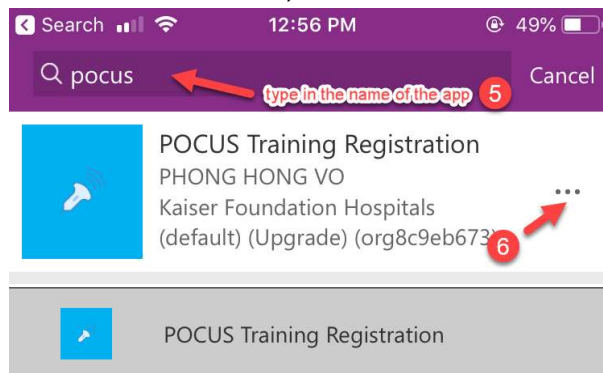

Open Power Apps on your Iphone

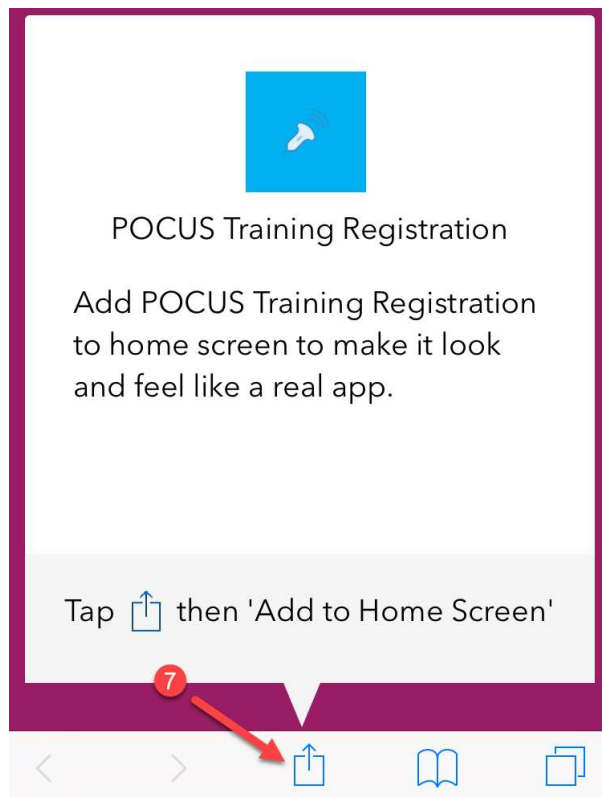

1. Click on Refresh button to update/load all the apps
2. Click on “Power Apps: My Apps”
3. Select “All apps”
4. Click on the Magnify glass to search for the app

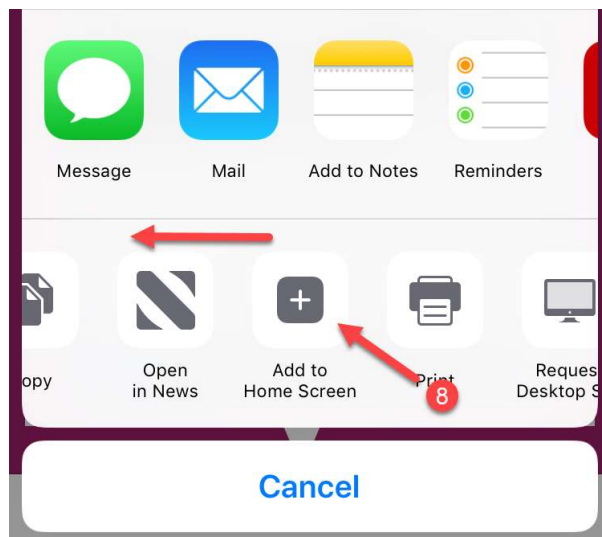

5. Type in the name of the app, for example “POCUS Training Registration”
6. Click on the 3 dots, then choose “Pin to Home”

7. Tap “Add to Home Screen”

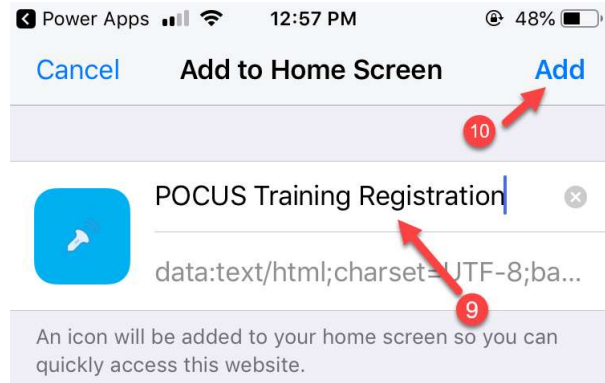

8. Slide the bottom bar to the left to find and select "Add to Home Screen"

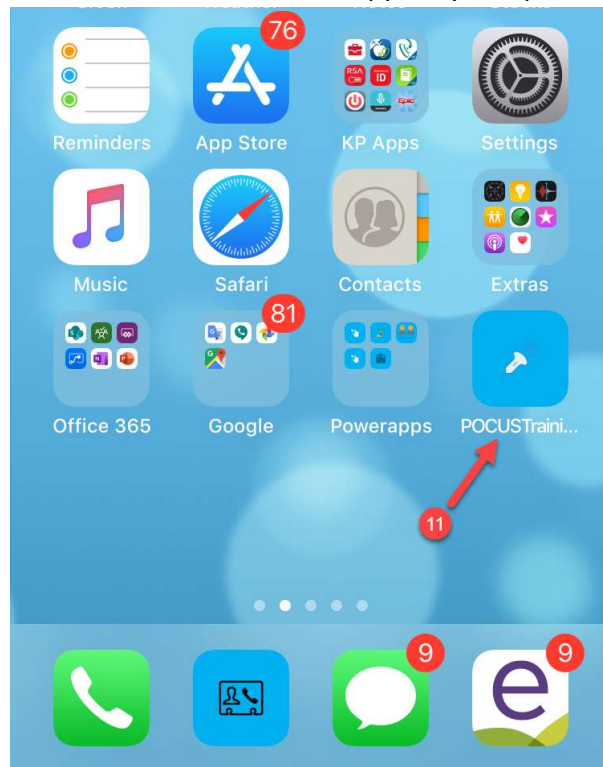

9. You can modify or shorten the name for the link as needed

10. Select "Add"

11. You should see the added app on your Iphone Home Screen now

12.
